MySQL Assignment 1

DDL Commands, Constraints

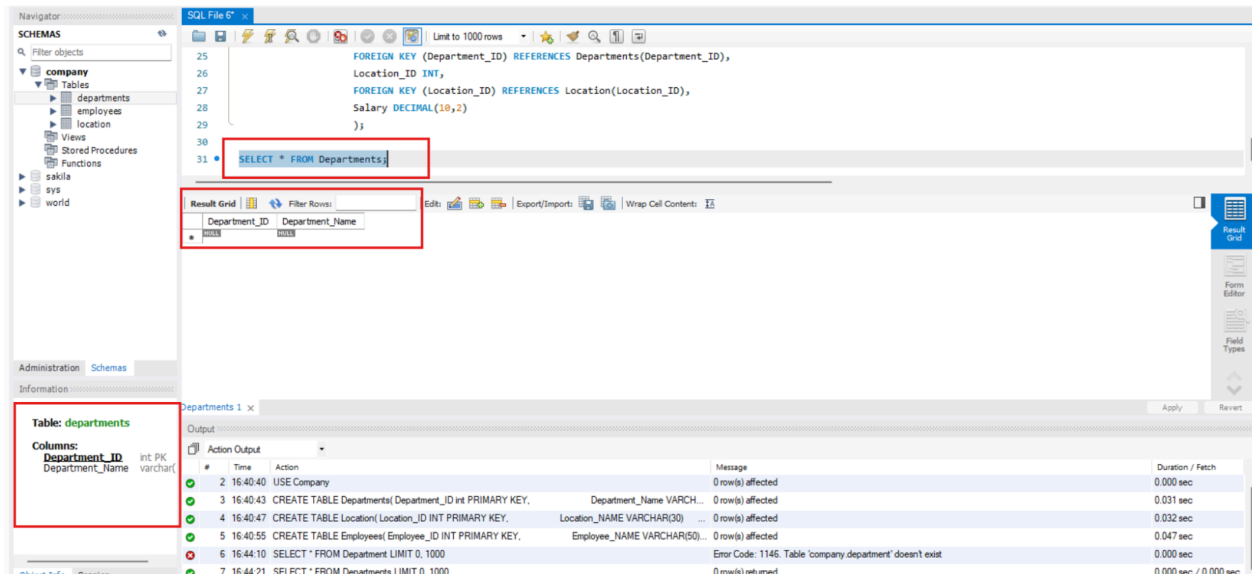

DDL Commands

1. Database and Table Creation (CREATE):

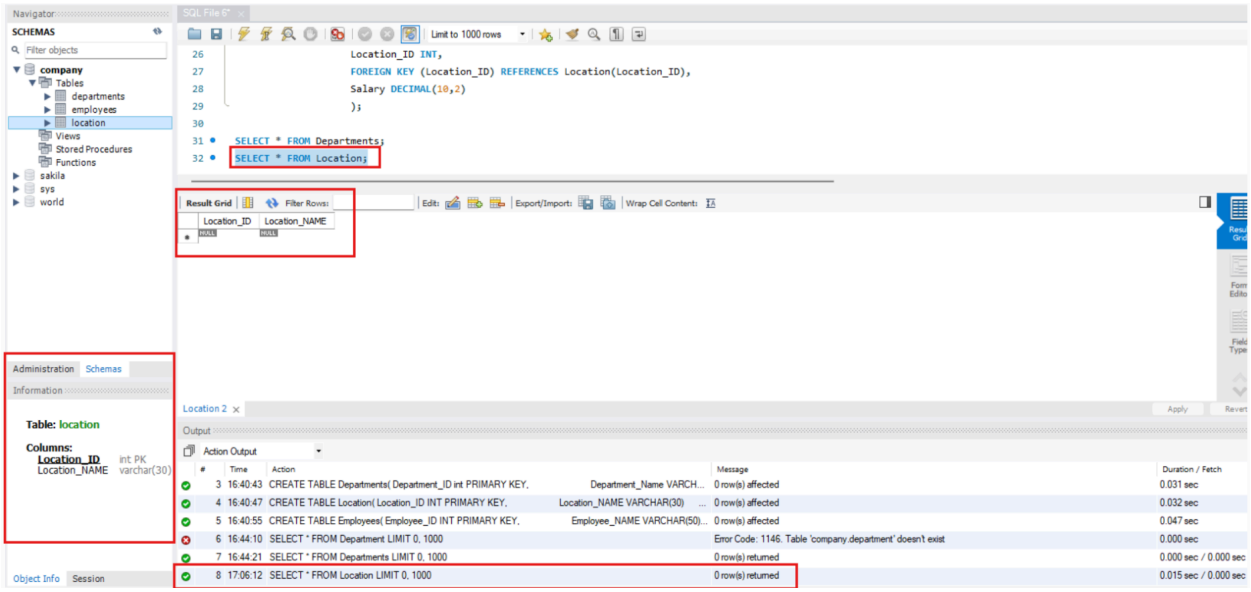

Database(Company) and Tables (Departmets, Location, Employees) has been created with appropriate data types and relationships.

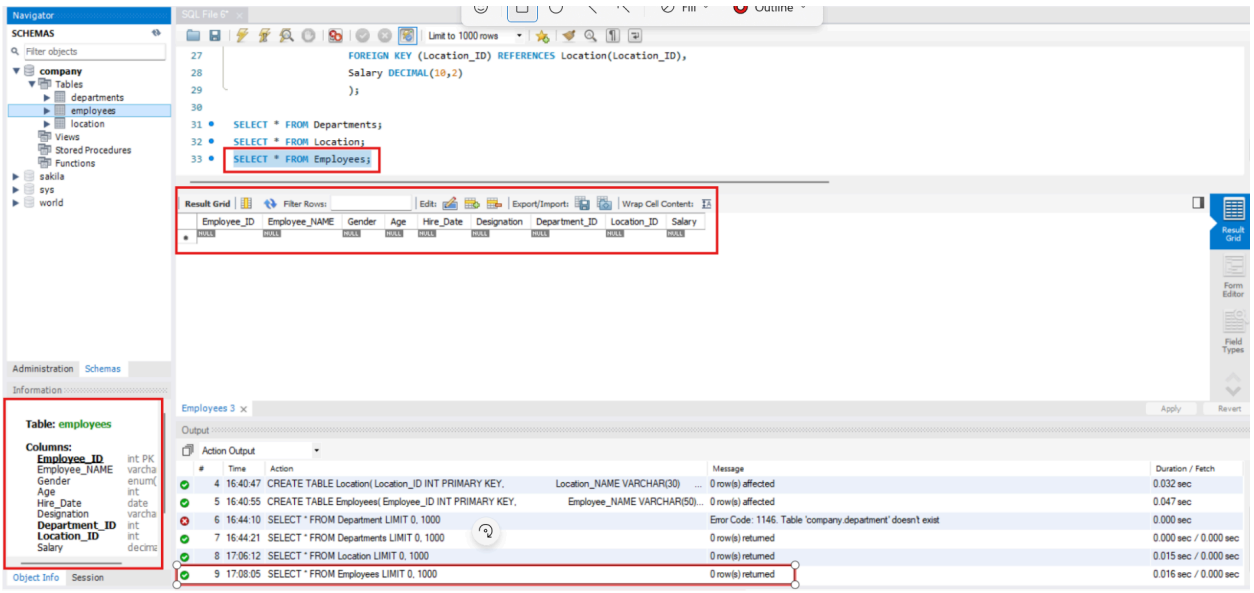

Departments Table

Location Table

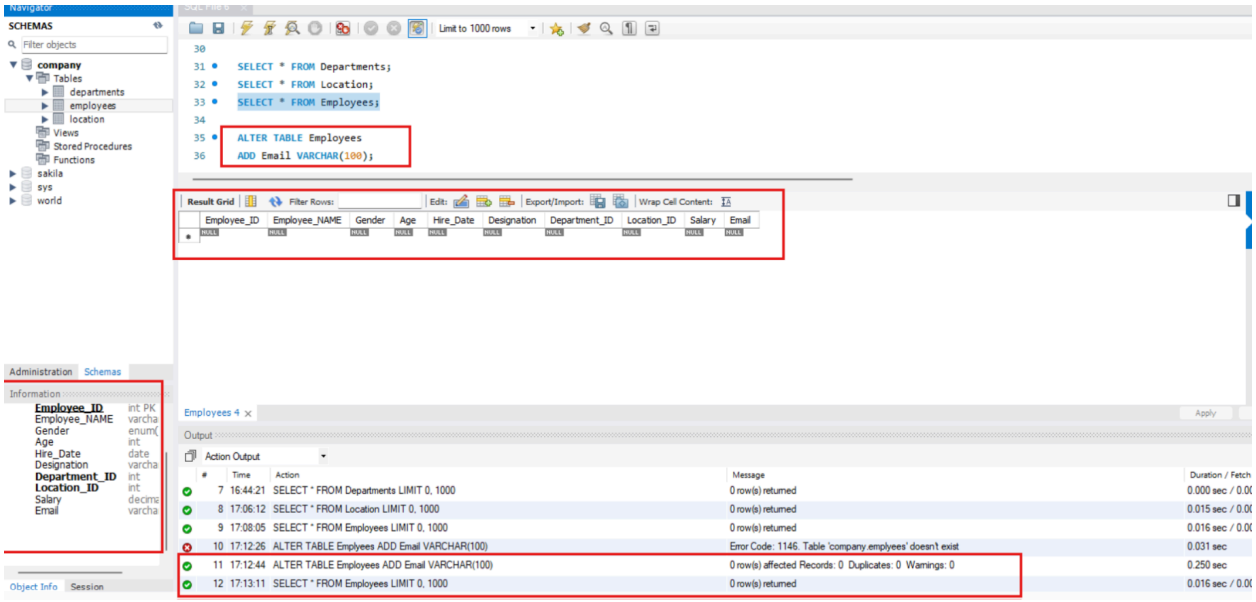

Employees Table

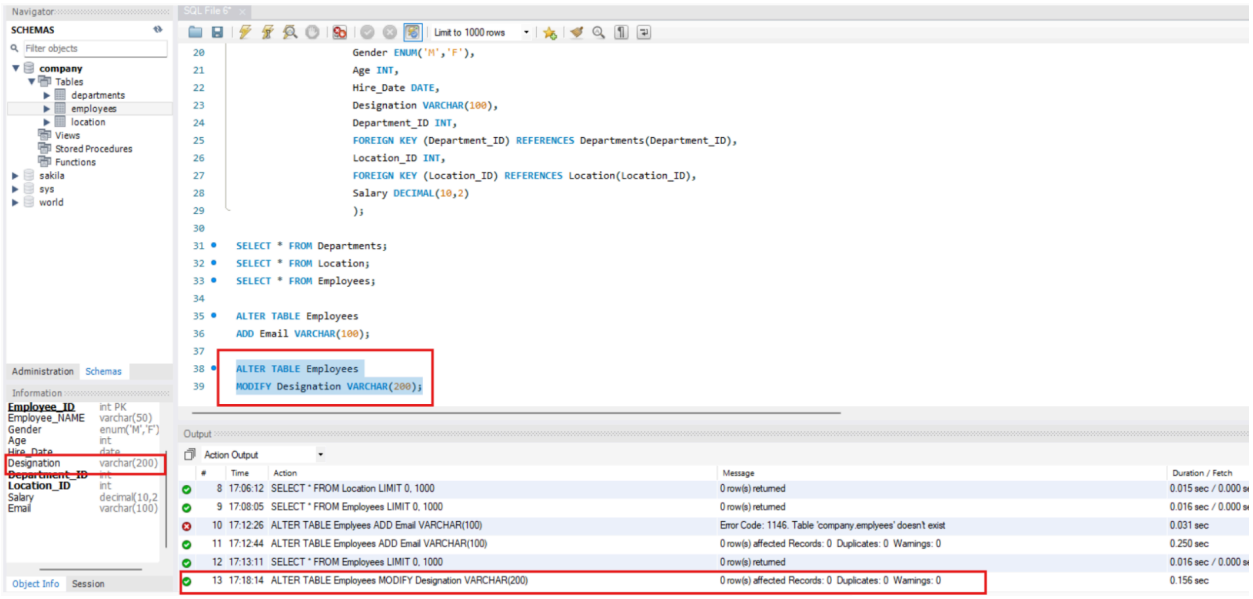

2. Table Alteration (ALTER)

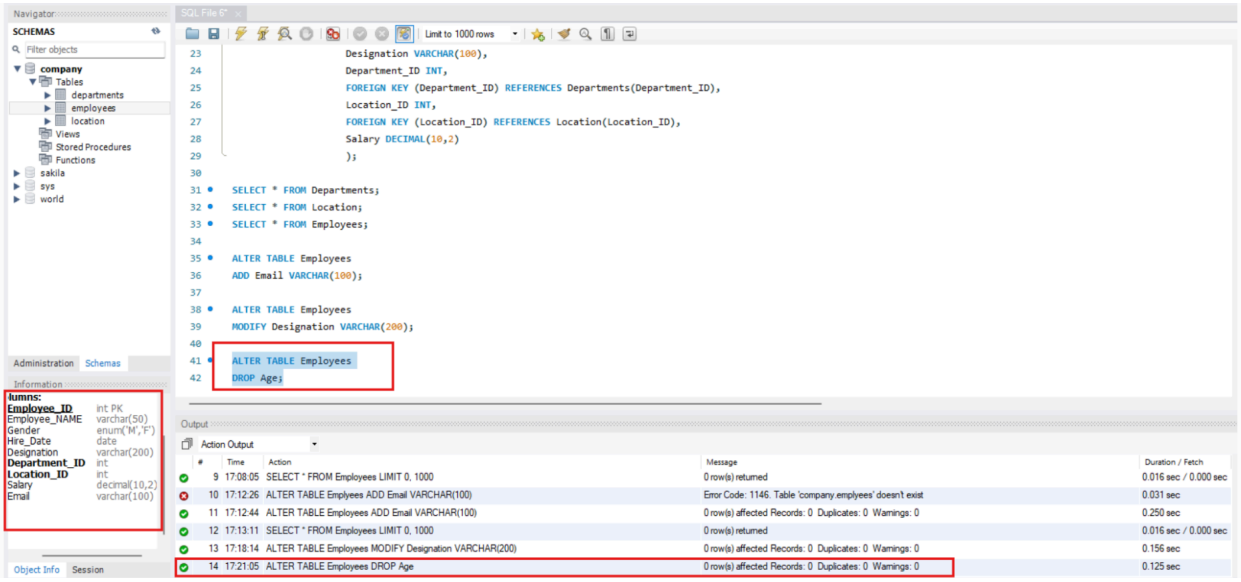

Email Column has been added to employees table using ALTER TABLE Command.

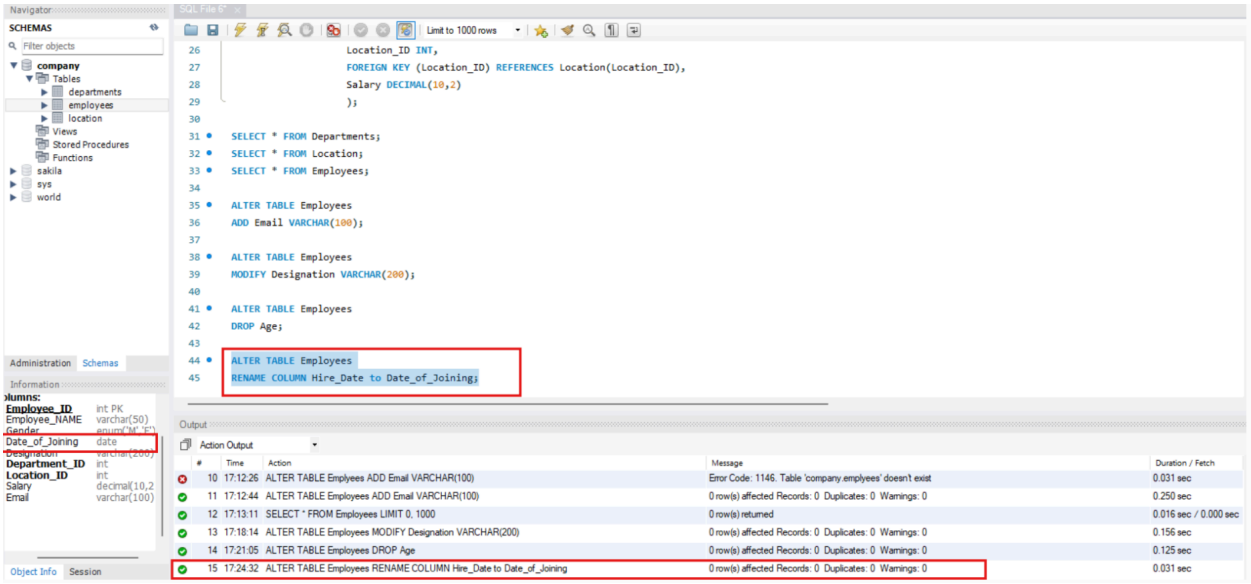

The data type of the `Designation` column has been modified to support a wider range of values.

The Age column has been dropped from the `Employees` table using the `DROP COLUMN` statement.

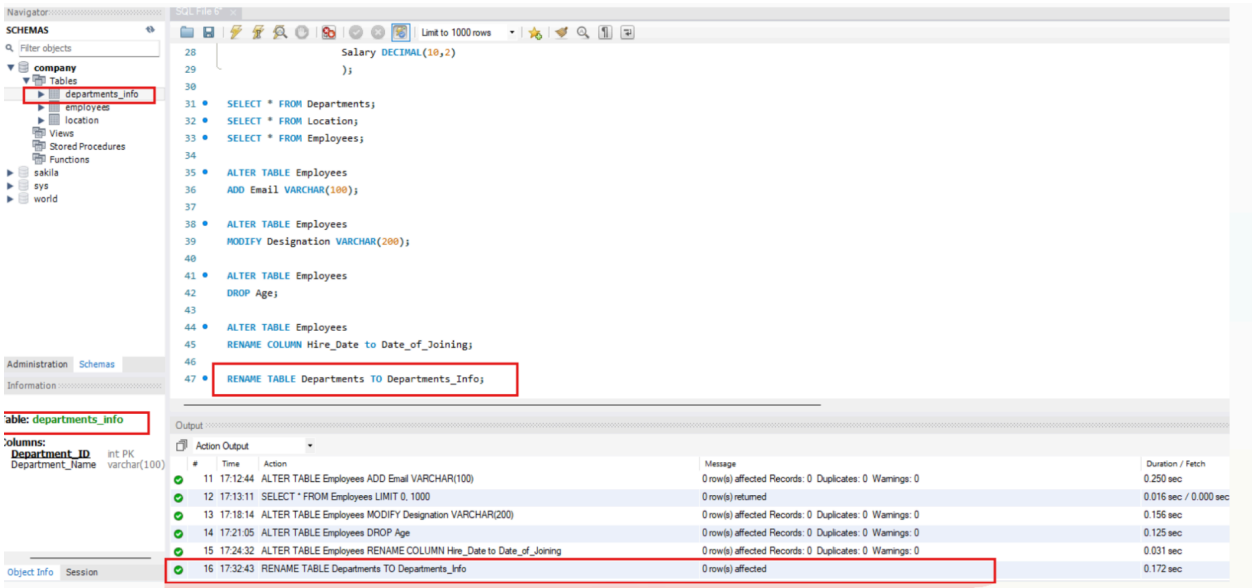

The hire_date column has been renamed to date_of_joining.

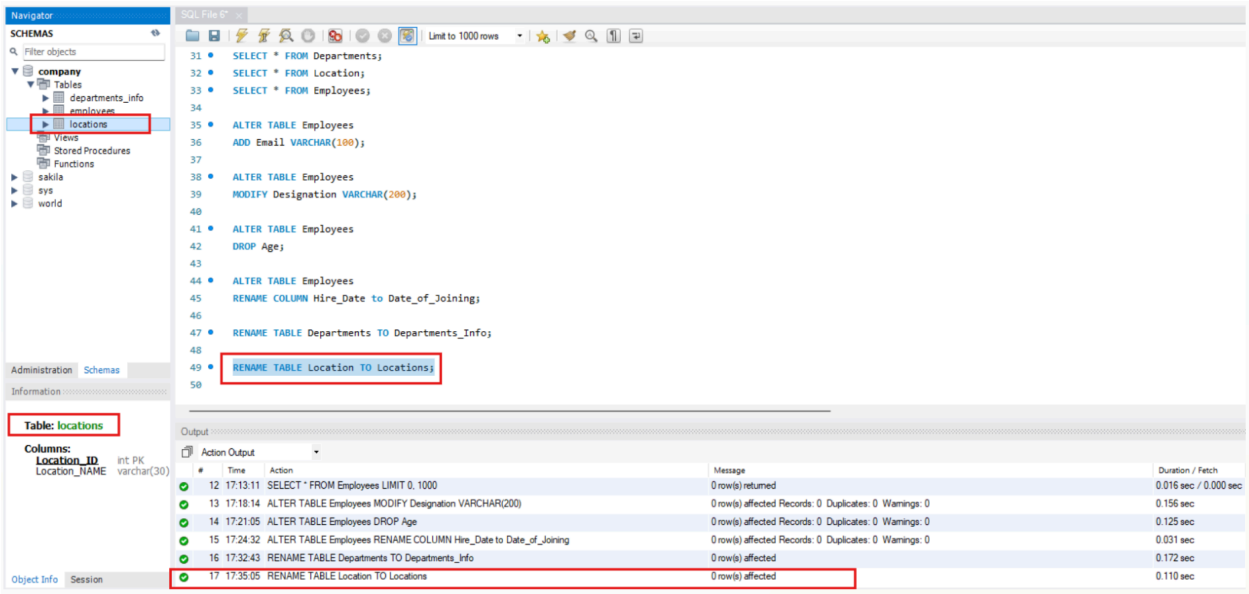

3. Table Renaming (RENAME):

"Departments" table has been renamed to "Departments_Info"

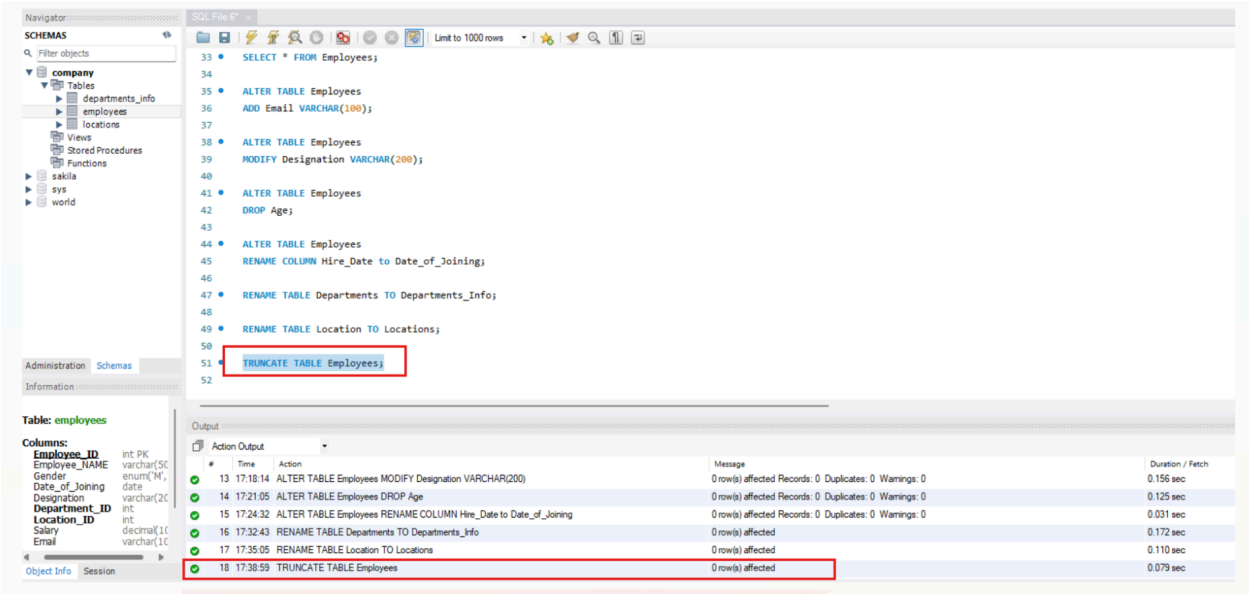

"Location" table has been renamed to "Locations".

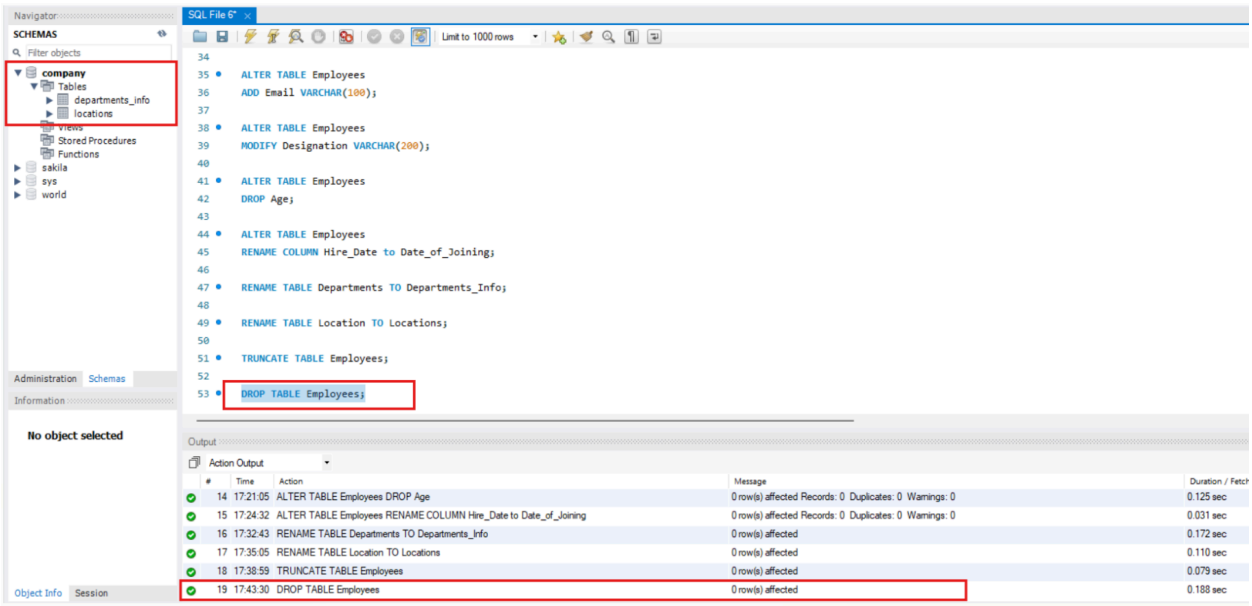

4. Table Truncation (TRUNCATE):

Employees table has been Truncated.

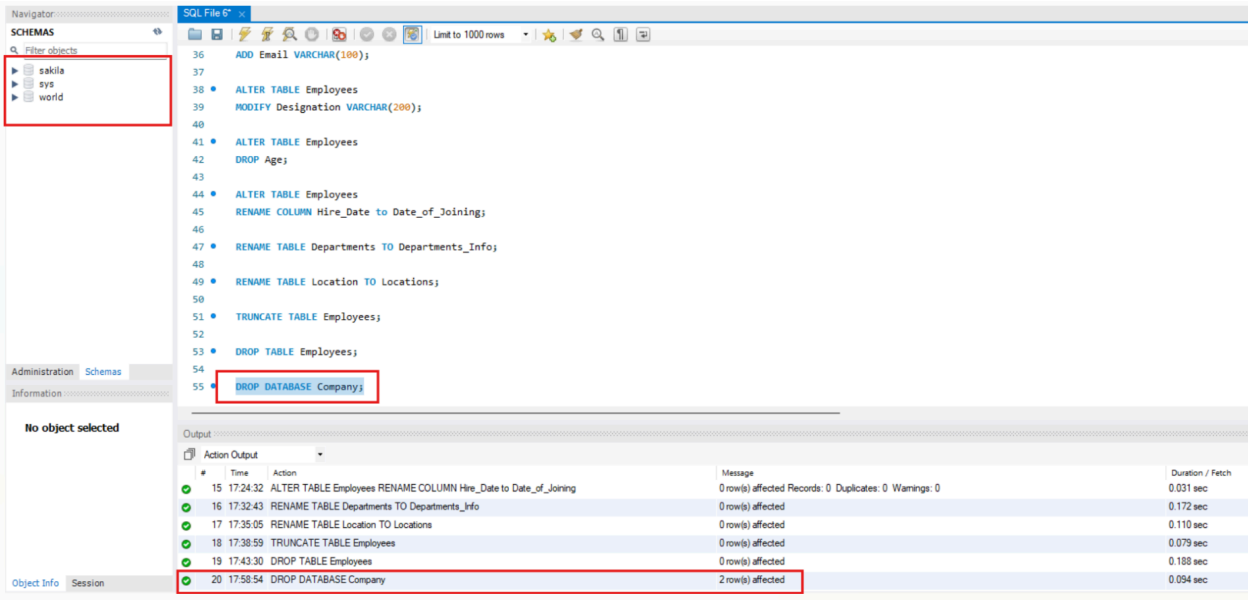

Database & Table Dropping (DROP):

Employees table has been dropped

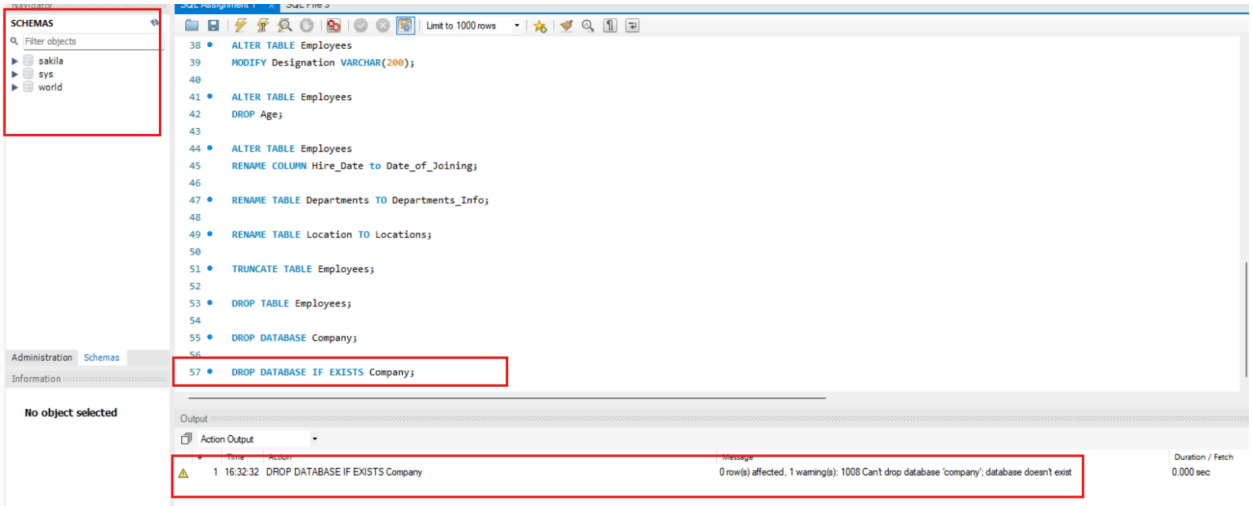

Company Database has been dropped

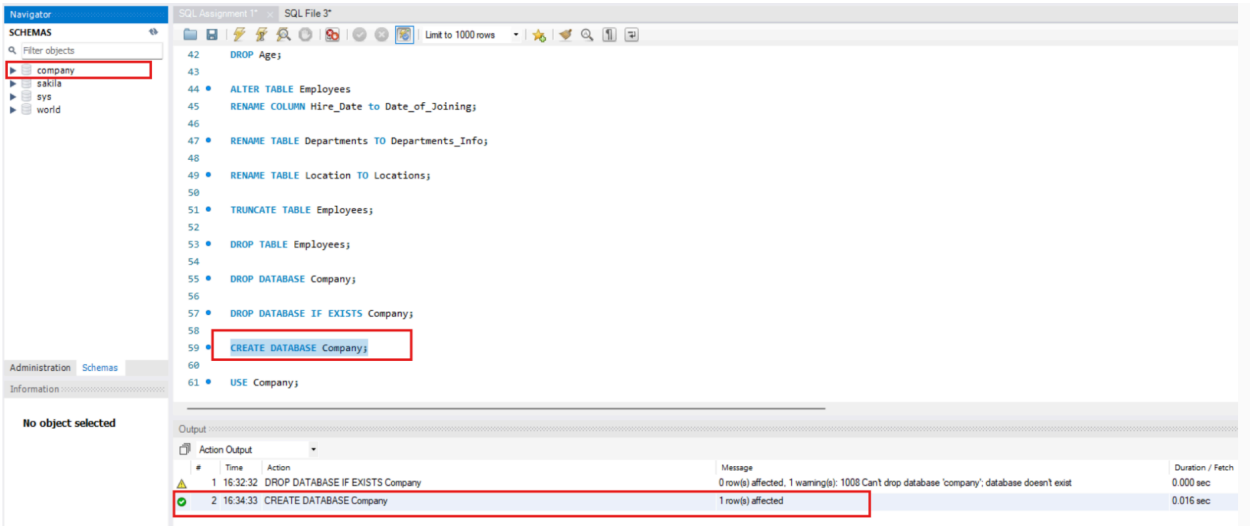

Tasks: Constraints -

1. Database Recreation:

Company Database has been dropped

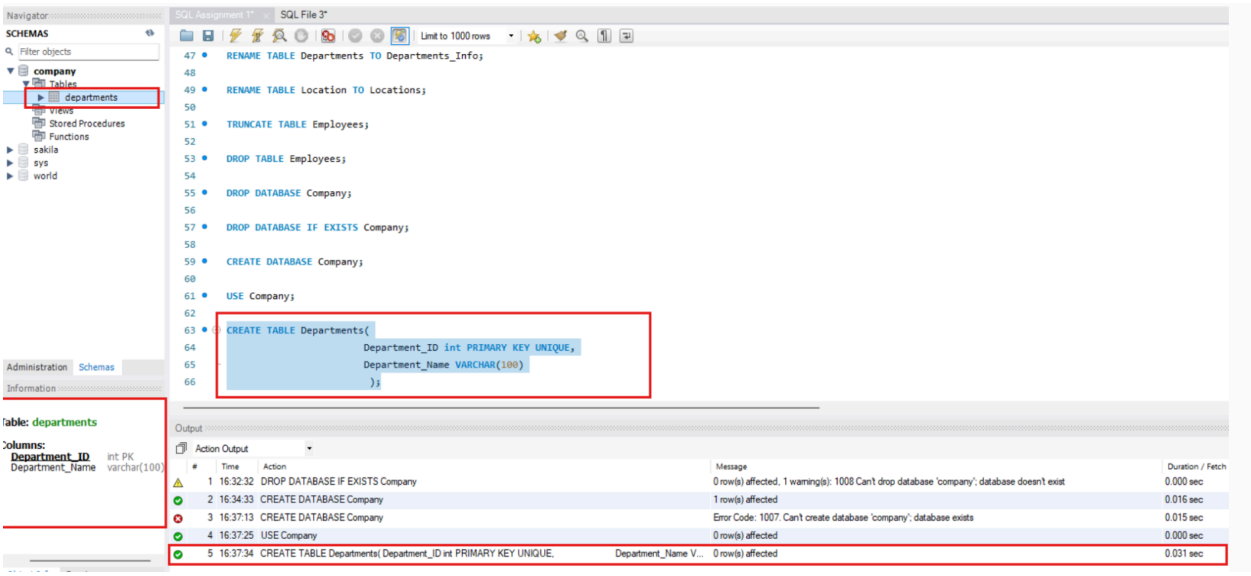

Company Database has been recreated.

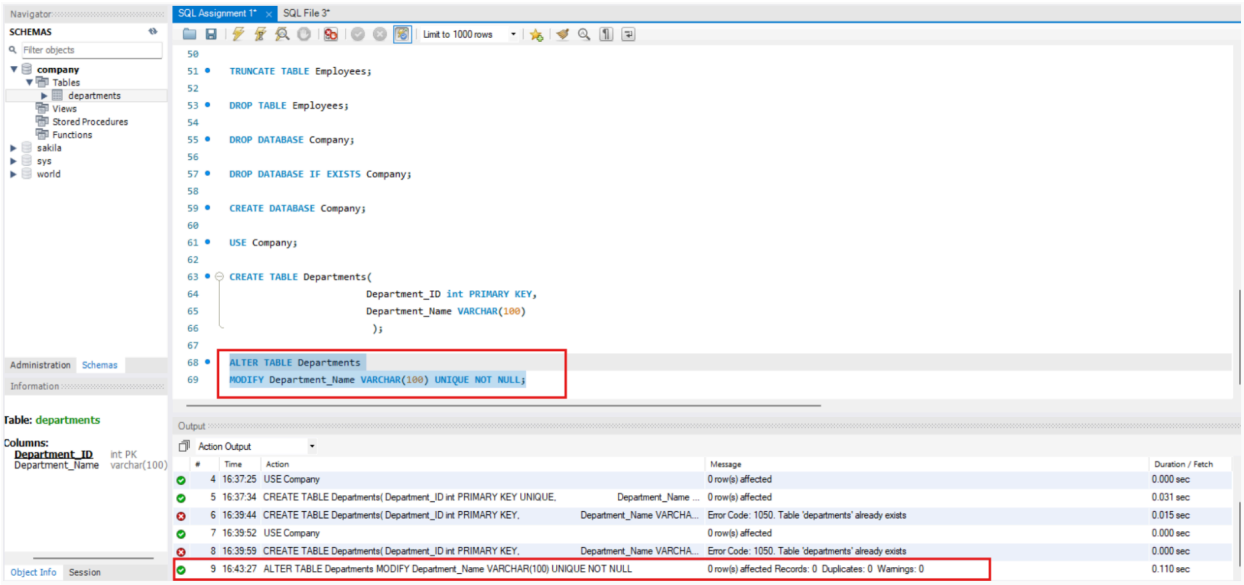

2. Departments Table:

PRIMARY KEY constraint has been added to "department_id" to uniquely identifies each department.

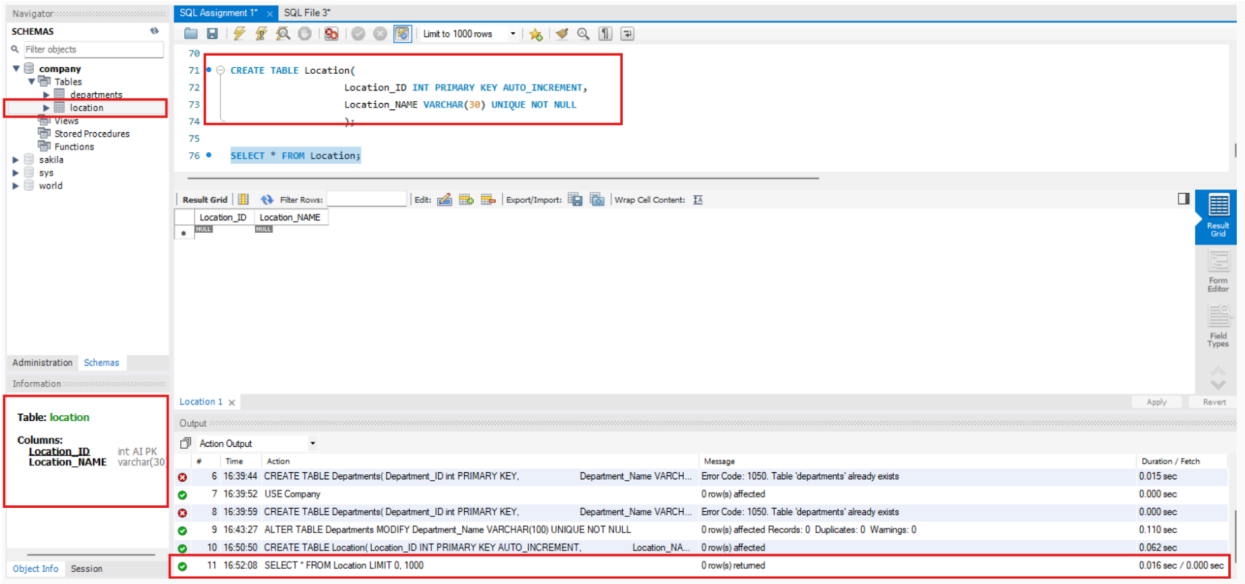

UNIQUE and NOT NULL constraints has been added to Department+name to avoid duplicate and null entries.

3. Locations Table:

AUTO_INCREMENT added to generate unique identifiers for each location, ensuring that they are incremented sequentially.

● NOT NULL and UNIQUE constraints added to prevent the insertion of null and duplicate locations.

4. Employees Table:

● PRIMARY KEY used to ensure employee has a distinct identifier.
● NOT NULL added to ensure that the employee's name is always provided.
● Limit the acceptable values for the "gender" field to only 'M' or 'F'.
● CHECK used to Enforce a condition to ensure that the employee's age is 18 or above.
● DEFAULT(CURRENT_DATE) used to assign the current date to the "hire_date" field if not specified.
● FOREIGN KEY added Establish links between the "department_id" and "location_id" fields in the "employees" table and their respective tables.
